

Story of The Library

The Library is a new conceptual resort located in the heart of Chaweng Beach in Ko Samui, Thailand. The project was originated by Kasemtham Sornsong the land owner whose desire is to develop an inherited piece of land to be more efficient as well as preserve existing nature as much as possible.

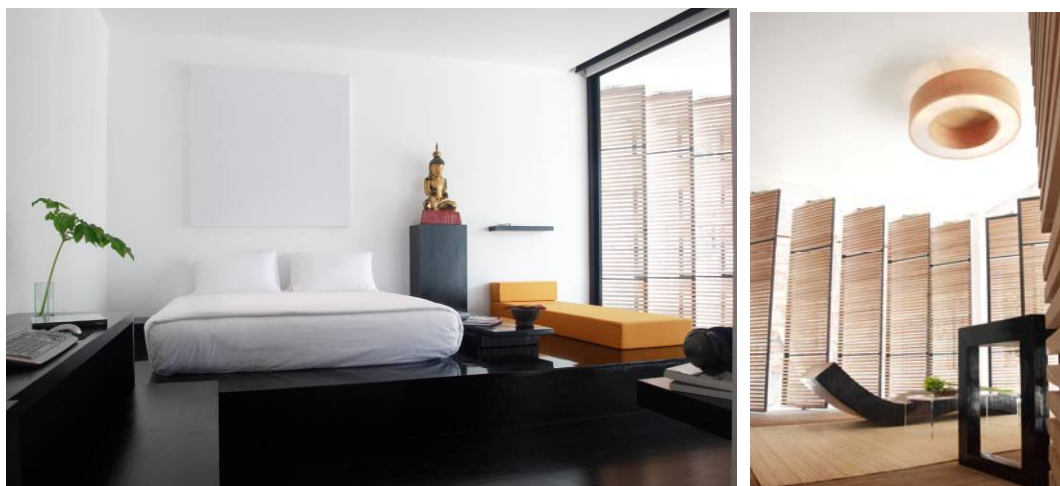

The piece of land is approx. 4 Rais or 1.5 acres with 50-metre beachfront area. Apart from an idea to preserve existing nature on the site, the project was inspired by the basic way of life and our belief that 'the real happiness is not complicated at all'.

Reading posture of relaxed travelers is our inspirations and becomes our ideal concept to build a smart-relaxing place where guests can indulge in a very unique atmosphere to actualize their holiday experience. And that's how 'The Library' came into our mind.

Being 'The Library' is to deliver a lifestyle vacation experience with our uniquely different character plus smart attractive services of the team. Each unit within The Library has its title exemplified from each part of a book.

There are only 26 units of accommodation within 4 Rais of land or approximately 1.5 acres consisting of 13 Studios and 13 Suites. Total area of each unit is 67 sq.m for Studio and 76 sq.m for Suite. Every unit has a chance to get close to nature of tropical garden and glimpse of sea views.

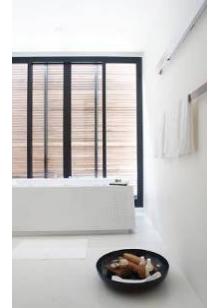

The Suite type (76 sq.m) has been assigned on the ground floor to enhance tropical feel and touch. There is one master bedroom of 25 sq.m., an open-air living area of 20 sq.m. equipped with wooden shutter to allow sea breeze and wind to freely flow into this area. An iMac computer with broadband connection is provided on a writing table in living area. Whist a bathroom area is approximately 19 sq.m. featured a Jacuzzi , rain shower and dressing area. In front of each Suite, outdoor mattresses are set aside serving as sun loungers for guests to enjoy sun-bathing and reading during the day.

The Suite type is more suitable for guests who prefer to stay close to the earth and require suitable space to read and write during their stay.

The Studio Type (67 sq.m.) is situated on the upper floor of each accommodation unit. Total area is divided into three area i.e. master bedroom with living corner, balcony, and bathroom with dressing area. Colorful fabric works to enhance cheerful and lively ambience. We believe that young couples or honeymooners will feel relax and cozy with this room type.

Each unit has a glimpse of sea view surrounded by shade of high huge old trees.

In-accommodation facilities

- Individual control of air-conditioning unit
- 42-inch Plasma screen television set with DVD player
- iMac with broadband internet connection plus Dock Station for iPod
- In-room bar and refreshment
- Electronic curtain
- Contemporary designed furniture

Every unit is thoughtfully designed and focused in providing space in order to giving a chance to our guests to stay closer to nature i.e. feel and touch the breeze, smell the earth after the rain. This is our aim to revoke and refresh inner spirit of the guests.
